

## The Alaska Resource Coalition Update on a Data Acquisition Campaign for Alaska Reservoirs

The fiscal year 2022 is optimistic, and we are extending the entry date to December 31<sup>st</sup>, of 2022.

On February 23rd, Ingrain will co-host with the GMC in Anchorage a lunch and learn. It will include an update on mobilization for the Data Acquisition Campaign, and Ingrain will also present the results of 3D CoreHD+ imaging and machine learning on the Umiat and Square Lake cores for a technology demo.

Please look out for an invite in the coming weeks.

Health and happiness to you all!
